Yah we went for a balance, and yes discursive in that sense lol
We also implied the jurisdictional issue but didn't hammer it.
We also don't really have strong language on jurisdictional stuff as that's legal/policing.
Do you have the RCMP QP on the truckers thing?
Might be some good stuff we can crib.

This letter is too discursive of the situation and too relieving of AB from its responsibilities. It should say that the request has been considered but cannot be fulfilled at this time due to scarcity of CAF resources & concerns about precedent. It should say that we understand that AB has the legal authorities necessary to enforce compliance of towing companies with the law, but could reconsider when we have assurance that all provincial avenues have been exhausted.

Hi Folks,

Forwarding a draft reply to the Alberta trucker-related RFA. For the DM's review please. Also looking for the DM's thoughts on timing given the sensitivities around this. Once we're comfortable with the language, we will connect with PCO IGA for their feedback and comfort.

Thanks
